

REMARKS

Claims 1-43 are pending in the present application.

Claims 1-6, 9, 11, 12, and 18 have been amended.

Claims 19-43 have been added.

The amendment of Claims 1 and 2 serves to improve clarity and is supported by the corresponding originally presented claims. The amendment of Claims 3-6, 11, 12, and 18, as well as the introduction of new Claims 19-43, serves to remove multiple dependencies.

Support for these amendments and new claims is provided by originally filed Claims 1-18.

No new matter has been entered by the present amendment.

Applicants submit herewith a substitute Sequence Listing and a corresponding computer-readable Sequence Listing. The sequence information recorded in the corresponding computer-readable Sequence Listing is identical to the paper copy of the substitute Sequence Listing. Support for all of the sequences listed in the substitute Sequence Listing is found in the present application. No new matter is believed to have been introduced by the submission of the substitute Sequence Listing and the corresponding computer-readable Sequence Listing. The specification has also been amended to add sequence identifiers where necessary. Support for this amendment is provided by the originally filed specification and Sequence Listing.

Applicants submit that the present application is in condition for examination on the merits. Early notification to this effect is respectfully requested.

Respectfully submitted,
